# Report of the Superintendent of Banks

## OFFICE OF THE SUPERINTENDENT OF BANKS STATE CAPITOL

Helena, Montana,  
October 26, 1926.

To His Excellency,  
Hon. J. E. Erickson,  
Governor of the State of Montana.

My dear Governor:

Pursuant to the provisions of subdivision 7, Section 210 and Section 6084 of Code 1921, Laws of Montana, I have the honor to submit to you the Thirty-First Annual Report of the State Examiner and the Eleventh Annual Report of the Superintendent of Banks, covering the period from July 1, 1925, to June 30, 1926.

I have delayed forwarding report of our activities during the fiscal year ending June 30, 1926, for the reason that I desired to study and analyze the new banking code, being prepared by the Banking Code Commission, in order that I might make some appropriate comment regarding it.

I wish to say that the Commission appointed by you has worked untiringly and efficiently on this code, at all times in consultation with this office, and that the code which they are about to submit to you is one to which serious thought has been given without fear or prejudice. In my opinion, it is a most excellent code and one which should give this department every opportunity to make efficient examinations of banks under our jurisdiction, and one which also offers the depositor of a bank excellent protection, if the laws are complied with by the banks.

There are no radical changes in this code, and it is not a new code, as a majority of the laws now on our books are used in the new code, with certain improvements, and I am frank to say that the new code, if initiated as it now stands, will offer greater protection to the depositing public than has heretofore been offered and is entirely satisfactory to this department from the standpoint of a good, sound, common-sense banking law.

The subject of a guaranty bank deposit law was gone into very thoroughly by the Commission and they availed themselves of every opportunity to obtain information with regard to the feasibility of some such law and after serious consideration they decided that a law of this nature would be impractical, economically unsound and not to the best interests of the general public, and I heartily agree with them.

With regard to this department's activities: You will note that this department was operated during the fiscal year incorporated in this report for less than the appropriation made. In this we were extremely fortunate in having no unnecessary delays to hamper us in the performance of our duties. This might not always be the case as at times our men become tied up in extended examinations and under these conditions it would cost us a greater amount to complete our examinations.

Another reason for the economic administration was that the force of examiners working under this department have been unusually capable and willing to work at all times; hours have meant nothing to them and they have always been willing and anxious to co-operate in every possible way—and certainly they are entitled to much credit for the economic manner in which the work has been handled during the past year.

The clerical force of this office also is entitled to a large amount of credit. While we have employed only two clerks in the office, in addition to our Chief Clerk, the work in the office has more than doubled

over what it has been in any year heretofore, and the force has not been increased. Certainly, this has required extra hours on the part of the office organization. They have worked holidays, when necessary, and have worked many evenings in order that the work might be finished and have at all times kept the office work in first-class condition. However, the work is too heavy and I believe additional help should be procured. The increased volume of work is due to the fact that we are now furnishing a full and complete report of every examination to the banks under examination. This was not done prior to June 1, 1925. In addition to that, individual letters of a disciplinary nature were mailed to banks under examination. Requirements are made and it becomes necessary to trace the action taken by the various boards of directors. This entails a great amount of correspondence; also, there are various other phases of the work which creates additional office work which has not been practiced heretofore. In addition to this, the office now compiles an analysis of examinations, an analysis of report of condition and keeps files on other detailed statistics, and it is safe to say the office work has actually doubled in the past year. This is also true of examinations of counties, cities, irrigation districts, building and loan associations, etc.

From an analysis of the expenditures of this office and the schedule showing the earnings of the office, you will note that had the fees for examinations been paid directly into the Treasury of the State for the benefit of the department, the receipts would have exceeded the expenditures; therefore, you will note the department has actually been self-sustaining and has shown a profit—this exclusive of fees for special examinations. It is possible that conditions might change; it is possible that new supplies might be necessary, that additional expenses might be incurred by reason of prolonged examinations, which is very possible and, as a result, the income as it now stands might not be sufficient to defray the expenses of the office. We believe that the appropriation as it now stands is sufficient for the kind of examinations we are now making. However, I am firmly convinced, and this belief is concurred in by the entire organization, that better examinations could be made provided greater time was allowed for the examination; better office records could be kept, provided additional help was procured. This would necessarily require a greater expenditure on our part, but, in my opinion, it would be an excellent investment and I believe this department should not be hampered in its operations by the lack of funds, as the work to be done, in our opinion, is of a very important nature and should not be slighted. Therefore, it would be our suggestion that our appropriation be increased in order that we could better examine the subjects under our supervision. If it were decided that this department should be self-supporting, a small increase of fee could be effected without injury to any one, thus permitting the department to make better examinations and keep more complete office data.

I wish to call your attention to the fact that annually three men from this office spend from six weeks to two months examining the State offices, and by taking this time out, it certainly crowds our force to make the regular examinations.

This report would not be complete without some comment upon the condition of the banks in the State. I need not give you figures as the comparative report included in this report will reveal them. It is gratifying to note that the banks in the State of Montana are in a very satisfactory condition, improving daily and the financial condition of the institutions is very satisfactory, with very few exceptions. There are a few small institutions that are still unable to earn sufficient to defray the expenses of the institution and it is possible that a few of these smaller institutions will be forced to discontinue operations by reason of lack of earning power.

Respectfully submitted,

JAY G. LARSON,

State Examiner.

Superintendent of Banks.

### GROWTH AND DEVELOPMENT OF EXAMINATIONS

Section 210, Code 1921, requires the State Examiner to examine the books and accounts of state and county officers, and all other public officers and boards, whether temporary or permanent, however created, and for what purpose, having the control, management, collection or disbursement of any public moneys of any character or description. This law, coupled with other provisions of the statutes, makes it the duty of the State Examiner, who is also ex-officio Superintendent of Banks, to examine the books and accounts of the following:

1. All State Officers.
2. All State Institutions.
3. All State Boards and Commissions.
4. All County Officers.
5. All State and Private Banks.
6. All Building and Loan Associations.
7. All State Dairy and Live Stock Loan Associations.
8. All Dairymen's Mutual Loan Associations.
9. All Incorporated Cities and Towns.
10. All County Free High Schools.
11. All Irrigation Districts.
12. All First and Second Class School Districts on Petition.
13. All Firemen's Disability Associations.
14. Students' Loan Fund.
15. Veterans' Welfare Commission.
16. Montana Association for Prevention of Tuberculosis.
17. Special Examinations.

There are 142 State Banks and 2 Private Banks to be examined twice each year.

There are 56 Counties to examine at least once a year.

There are 111 Cities and Towns to examine at least once each year.

There are 20 County Free High Schools to examine at least once each year.

There are 51 Irrigation Districts to examine at least once each year.

There are 32 Building and Loan Associations and 1 Breeders' Mutual Loan Association to examine at least once each year.
